

## LED FLESSIBILE 12 V FLEX LED 12 V

**Circuito LED flessibile:** 6000 x 11,5 mm con 360 chip LED – SMD di colore unico, distanza LED 16,6 mm separabile – tagliare ogni 50 mm, retro con nastro adesivo 3 m

**Flexible LED circuit:** 6000 x 11,5 mm with 360 LED – SMD chips (only color), LED distance 16.6 mm, divisible – cut every 50 mm, adhesive tape on the reverse side, 3 m.

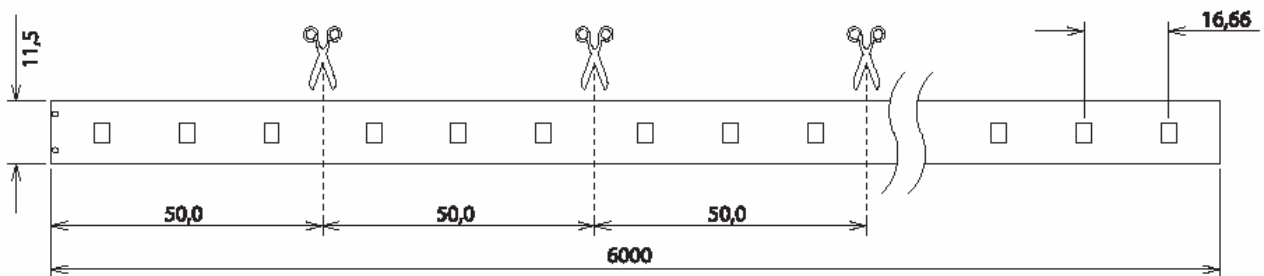

### Modi d'impiego

Luci orientamento, strade, scale, facciate palazzi...

### Applications:

Orientation lights, street, stairs, palace faces...

Tensione/Voltage	12 Vdc
Potenza/Power	4,8 W/m
Separabile/Divisible	50 mm = 3 LED = 0,24 W
Temperatura ammessa/Working temperature	-30°C a 65°C
Angolo luminoso/Luminous angle	120°
